

## Passive GPS for DVR23, DVRSD, & DVR19

It doesn't get much easier than this! Plug your DVR19GPS into your DVR23, DVR19 or DVRSD and instantly track your GPS location. The GPS information is embedded right into the video for easy retrieval. Watch your videos and real time vehicle tracking on Google Earth. Picture in picture.

With our advanced client software, you can quickly find the vehicle location and easily convert it to a video or JPG image. When fast, vehicle location and speed of your vehicle images are a priority, the DVR19USB is the solution. All CVC Mobile products are designed & tested to meet our high standards for use with our Extreme Environment DVR hardware.
